CONTENTS

VOLUME 24, NUMBER 1, JANUARY 1986

M. S. Blank and Maria L. Dufau. Definition of bioactive prolactin pulsations during the menstrual cycle 1

Elizabeth Stoner, Joan Dimartino-Nardi, Ursula Kuhnle, Lenore S. Levine, Sharon E. Oberfield and Maria I. New. Is salt-wasting in congenital adrenal hyperplasia due to the same gene as the fasciculata defect? 9

R. St-Arnaud, R. Lachance, Susan J. Kelly, A. Belanger, A. Dupont and F. Labrie. Loss of luteinizing hormone bioactivity in patients with prostatic cancer treated with an LHRH agonist and a pure antiandrogen 21

P. Petsos, Wendy A. Ratcliffe, D. F. Heath and D. C. Anderson. Comparison of blood spot, salivary and serum progesterone assays in the normal menstrual cycle 31

J. W. Barlow, J. M. Csicsmann, H. Meinhold, C.-F. Lim and J. R. Stockigt. Familial dysalbuminaemic hyperthyroxinaemia: studies of albumin binding implications for hormone action 39

M. L. Mitchell, Rosalie J. Hermos, Ann J. E. Bennett, J. J. McKenna and Elizabeth L. Mitchell. Prolactin levels in hypothyroid and euthyroid infants during the first week of life 49

I. Fogelman, L. Smith, R. Mazess, M. A. Wilson and J. A. Bevan. Absorption of oral diphosphonate in normal subjects 57

M. C. White, P. Chahal, L. Banks and G. F. Joplin. Familial hypopituitarism associated with an enlarged pituitary fossa and an empty sella 63

Y. M. Tan, P. A. Steele and S. J. Judd. The effect of physiological changes in ovarian steroids on the prolactin response to gonadotrophin releasing factor 71

Fionuala M. Creagh, R. D. Howells, Susan Williams, Suzanne Didcote, F. A. Hashim, V. B. Petersen and B. Rees Smith. IgG thyrotrophin receptor antibody activity in Graves' disease; a study of TSH agonist and antagonist activities by isoelectric focusing 79

T. D. M. Williams, S. L. Lightman and M. J. Leadbeater. Hormonal and cardiovascular responses to DDAVP in man 89

S. S. Nussey, V. T. Y. Ang, N. Finer and J. S. Jenkins. Responses of neurohypophysial peptides to hypertonic saline and insulin-induced hypoglycaemia in man 97

C. J. Pearce and R. L. Himsworth. The effect of amiodarone on thyroxine kinetics 107

Letter to the Editors 113

Book reviews 115

VOLUME 24, NUMBER 2, FEBRUARY 1986

J. D. Few, P. J. W. Wallis and V. H. T. James. The relationship between salivary aldosterone and plasma free aldosterone concentrations 119

P. L. H. Hwang, C. S. A. Ng and S. T. Cheong. Effect of oral contraceptives on serum prolactin: a longitudinal study in 126 normal premenopausal women 127

J. R. E. Davis, M. C. Sheppard, R. A. Shakespear, S. S. Lynch and R. N. Clayton. Does growth hormone releasing factor desensitize the somatotroph? Interpretation of responses of growth hormone during and after 10-hour infusion of GRF 1–29 amide in man 135

E. Martino, G. Bambini, L. Bartalena, Claudia Mammoli, F. Aghini-Lombardi, L. Baschieri and A. Pinchera. Human serum thyrotrophin measurement by ultrasensitive immunoradiometric assay as a first-line test in the evaluation of thyroid function 141

B. J. Looij Jr, A. C. Nieuwenhuijzen Kruseman, A. H. Mudde, M. Frölich, G. P. Piaditis, S. C. Hodgkinson, C. McLean, A. Grossman, D. H. Coy, L. H. Rees, P. J. Lowry and G. M. Besser. The interaction of growth hormone releasing hormone with other hypothalamic hormones on the release of anterior pituitary hormones 149

P. G. Kopelman and K. Noonan. Growth hormone response to low dose intravenous injections of growth hormone releasing factor in obese and normal weight women 157

A. P. Murdoch, W. Dunlop and P. Kendall-Taylor. Studies of prolactin secretion in polycystic ovary syndrome 165

W. Hönigl, U. A. Knuth and E. Nieschlag. Selective reduction of elevated FSH levels in infertile men by pulsatile LHRH treatment 177

V. Wynn, I. F. Godsland, M. Seed and H. S. Jacobs. Paradoxical effects of the anti-androgen cyproterone acetate on lipid and lipoprotein metabolism 183

I. E. Messinis, A. Templeton and D. T. Baird. Endogenous luteinizing hormone surge in women during induction of multiple follicular development with pulsatile follicle stimulating hormone 193

A. G. Dupont, P. Vanderniepen, A. Volckaert, J. Smitz, A. C. Vansteirteghem and R. O. Six. Effect of fenoldopam on the aldosterone response to metoclopramide in man 203

B. Magee, B. Sheridan, M. F. Scanlon and A. B. Atkinson. Inappropriate thyrotrophin secretion, increased dopaminergic tone and preservation of the diurnal rhythm in serum TSH 209

A. W. G. Goolden and J. S. W. Stewart. Long-term results from graded low dose radioactive iodine therapy for thyrotoxicosis 217

Rapid communications

S. M. McLachlan, C. A. S. Pegg, M. C. Atherton, S. L. Middleton, F. Clark and B. Rees Smith. TSH receptor antibody synthesis by thyroid lymphocytes 223

A. Grossman, R. Ross, J. A. H. Wass and G. M. Besser. Depot-bromocriptine treatment for prolactinomas and acromegaly 231

VOLUME 24, NUMBER 3, MARCH 1986

F. R. Kaufman, G. Costin and B. S. Reid. Autonomous ovarian hyperfunction followed by gonadotrophin-dependent puberty in McCune-Albright syndrome 239

A. Glasier, A. S. McNeilly and D. T. Baird. Induction of ovarian activity by pulsatile infusion of LHRH in women with lactational amenorrhoea 243

D. Cunnah, G. Ross and G. M. Besser. Management of cranial diabetes insipidus with oral desmopressin (DDAVP) 253

D. J. HANDELSMAN, J. A. SPALIVIERO and J. R. TURTLE. Bioactive luteinizing hormone in plasma of uraemic men and men with primary testicular damage 259
R. C. BAXTER and J. S. M. DE MELLOW. Measurement of insulin-like growth factor-II by radioreceptor assay using ovine placental membranes 267
I. WAKABAYASHI, T. SHIBASAKI and N. LING. A divergence of plasma growth hormone response between growth hormone-releasing factor and insulin-induced hypoglycaemia among middle-aged healthy male subjects 279
K. L. MCCORMICK. Hyperprolactinaemia in congenital hypothyroidism 285
V. JORDAN, C. DIEGUEZ, I. LAFAFFIAN, M. D. RODRIGUEZ-ARNAO, A. GOMEZ-PAN, R. HALL and M. F. SCANLON. Influence of dopaminergic, adrenergic and cholinergic blockade and TRH administration on GH responses to GRF 1–29 291
F. TEDING VAN BERKHOUT, R. J. M. CROUGHS, L. KATER, H. J. SCHUURMAN, F. J. H. GMELIG MEYLING, C. D. KOOYMAN, R. D. VAN DER GAAG, D. JOLINK and H. A. DREXHAGE. Familial Cushing's syndrome due to nodular adrenocortical dysplasia. A putative receptor-antibody disease? 299
T. YASUDA, H. NODA-CHO, T. NISHIOKA, N. SASAKI, H. NIIMI and H. NAKAJIMA. Pseudohypoaldosteronism: decreased aldosterone levels with age without significant change in urinary sodium excretion 311
P.-M.G. BOULOUX, A. GROSSMAN and G. M. BESSER. Naloxone provokes catecholamine release in phaeochromocytomas and paragangliomas 319
J. P. O'HARE, I. A. D. O'BRIEN, J. ARENDT, P. ASTLEY, W. RATCLIFFE, H. ANDREWS, R. WALTERS and R. J. M. CORRALL. Does melatonin deficiency cause the enlarged genitalia of the fragile-X syndrome? 327
M. W. MYSKOW, A. S. KRAJEWSKI, A. E. DEWAR, E. P. MILLAR, K. MCLAREN and J. W. FABRE. The role of immunoperoxidase techniques on paraffin embedded tissue in determining the histogenesis of undifferentiated thyroid neoplasms 335

VOLUME 24, NUMBER 4, APRIL 1986

P. J. EVANS, I. WEEKS, M. K. JONES, J. S. WOODHEAD and M. F. SCANLON. The circadian variation of thyrotrophin in patients with primary thyroidal disease 343
P. D'AMOUR, F. GILBERT, M. GASCON-BARRE, J. M. BOUTIN, J. HAVRANKOVA, R. BÉLANGER and R. MATTE. Late increase in serum 1,25-dihydroxyvitamin D one month after surgery for adenomatous hyperparathyroidism 349
I. A. D. O'BRIEN, I. G. LEWIN, J. P. O'HARE, JOSEPHINE ARENDT and R. J. M. CORRALL. Abnormal circadian rhythm of melatonin in diabetic autonomic neuropathy 359
J. H. GLEED, G. N. HENDY, S. R. NUSSBAUM, M. ROSENBLATT and J. L. H. O'RIORDAN. Development and application of a mid-region specific assay for human parathyroid hormone 365
J. WRIGHT, M. ALDHOUS, C. FRANEY, J. ENGLISH and J. ARENDT. The effects of exogenous melatonin on endocrine function in man 375
P. H. BAYLIS, C. PIPPARD, G. V. GILL and J. BURD. Development of a cytochemical assay for plasma vasopressin: application to studies on water loading normal man 383
A. M. SOPWITH, ELIZABETH S. PENNY, A. GROSSMAN, M. O. SAVAGE, G. M. BESSER and LESLEY H. REES. Normal circulating immunoreactive growth hormone releasing factor (hGRF) concentrations in patients with functional hypothalamic hGRF deficiency 395

A. E. M. Smals, G. F. F. M. Pieters, A. G. H. Smals, Th. J. Benraad and P. W. C. Kloppenborg. Human pancreatic growth hormone releasing hormone fails to stimulate human growth hormone both in Cushing's disease and in Cushing's syndrome due to adrenocortical adenoma 401

Akira Nakai, Akio Nagasaka, Takako Ohyama, Toshihiro Aono, Katsumi Iwase, Haruhiko Hasegawa, Shiro Hayami, Hiroyoshi Hidaka, Toshio Tanaka, Mitsuro Niinomi, Noriyuki Nihei, Hifumi Nakagawa, Susumu Ohtani, Shuichi Miyakawa and Kyohei Kawase. High activity of cyclic 3′,5′-nucleotide phosphodiesterase in sera of patient with phaeochromocytoma 409

V. Jordan, C. Dieguez, R. Valcavi, C. Artioli, I. Portioli, M. D. Rodriguez-Arnao, A. Gomez-Pan, R. Hall and M. F. Scanlon. Lack of effect of muscarinic cholinergic blockade on the GH responses to GRF 1–29 and TRH in acromegalic subjects 415

S. R. Ahmed and S. M. Shalet. Discordant responses of prolactinoma to two different dopamine agonists 421

S. S. Nussey, V. T. Y. Ang, D. H. Bevan and J. S. Jenkins. Human platelet arginine vasopressin 427

M. F. Scanlon, J. R. Peters, J. Salvador, S. H. Richards, R. John, S. Howell, E. D. Williams, J. P. Thomas and R. Hall. The preoperative and postoperative investigation of TSH and prolactin release in the management of patients with hyperprolactinaemia due to prolactinomas and nonfunctional pituitary tumours: relationship to adenoma size at surgery 435

S. P. Bidey and R. P. Ekins. Comparative evaluation of cyclic AMP and iodide accumulation responses to thryroid-stimulating immunoglobulins in cultured FRTL-5 cells 447

P. H. Baylis, C. Thompson, J. Burd, W. M. G. Tunbridge and C. A. Snodgrass. Recurrent pregnancy-induced polyuria and thirst due to hypothalamic diabetes insipidus: an investigation into possible mechanisms responsible for polyuria 459
